GROWNED PERFECTION!

ACCESS KITEBOARD MAGAZINE #5 2008

Our dedication to Aaron! The 2009 Hadlow is developed together with Aaron and our team. 100% performance and commitment to kiteboarding.

It features an extreme 3D shape and 3D moulded floating pillow to follow every movement of Aaron's body for 100% performance. For comfort we have our neoprene soft edges and Dual Foam System (DFS).

Our new MPL spreader bar is mounted on the new Integrated slide-in bar pad system for ultimate protection. For his special tricks we have a new PULL release handle pass leash safety system.

***Integrated Bar Pad**

BEST
KITEBOARDING.COM

The standard against which all other free-ride kites are judged, the '09 Waroo doesn't just blur the lines between new school and old school, wakestyle and freestyle: it erases them. The Waroo's huge depower, fast turning, and easy handling helps riders of all skill levels to progress faster and further, and simply, to have more fun kiteboarding.

The '09 Waroo comes with a revised VP2 bridle for perfect stability and ABC Custom Tuning for confidence-inspiring versatility and ease of use. Our legendary Surf Tough build quality and original Canopy Framing ensure your Waroo can withstand any abuse you throw at it.

If your riding style includes a little bit of everything, then the Waroo is the perfect kite for the way you ride.
